

Life in a Bubble I Blew (bonus track)

Joywave

When I lay my head
I find I can't unwind
I come alive

All these things are overdue
There's nothing I'd rather do
I'm swinging between hell and you
I'm trying not to confuse the two

It's life in a bubble I blew [x2]

When I kill the lights
I can't control my mind

We float in shapes, racing
All these things are overdue
There's nothing I'd rather do
I'm swinging between hell and you
I'm trying not to confuse the two

It's life in a bubble I blew

On the ground keep my heart palpitating
Or in the clouds keep my head from levitating,
Underground, keep me lit and salivating
Be the crown, jewel to me that I'm awaiting [x2]

It's all I want [x5]

On the ground, yeah, keep my heart palpitating
Or in the clouds, yeah, keep my head from levitating,
Underground, keep me lit and salivating
Be the crown, jewel to me that I'm awaiting [x4]
