Freak Dat Body

R. Kelly

Baby, baby let me see you freak that body body, baby
Baby, baby let me see you freak that body body, baby
Baby, baby let me see you freak that body body, baby
Baby, baby let me see you freak that body body, babyYeah baby, let me see you freak that body
Let your booty shake, but don't let cha back break
Baby, you got skills
Uh so step right up and let the R. Get a feel
I wanna see you dance to a mid tempo
You can stroke your body and make it look so simple
You kept the wop in style
By bobbing your head, while your booty goes wild
Three to four fellas circling all around you
Hoping they'll get the chance to freak you
And your body's steady humping
You make the DJ wanna keep the party jumping, babyBaby, baby let me see you freak that body body, baby (freak it baby, uh)
Baby, baby let me see you freak that body body, baby (freak it baby, uh)
Baby, baby let me see you freak that body body, baby (just freak it baby, uh)
Baby, baby let me see you freak that body body, baby (yeah)I love to see your daisy dukes start the shakin'
Win the straight contest is bringin' home the bacon
You got the body that the song likes to shine on
The kind that makes the fellas wanna put the mac on
And you're not afraid to get next to
Guys when it's time to, sex the pootang
Freakin' me all day, freakin' me all night
Making the R. Feel so right
Uh, 'cause that's the way I like it baby
You know you make me wanna shout, you're driving me crazy, uh
Now let me see you freak it babyBaby, baby let me see you freak that body body, baby (freak it baby, uh)
Baby, baby let me see you freak that body body, baby (just let me see you baby)

I got drinks, just don't forget to bring your body
I wanna see ya hips swingin' uh
Now bend over baby and let me see you G-stringin'
I can hear the music pumpin'
The parties jumpin' on you somethin'
Smacking ya butt while I stroke you with my stroker
I'm with the jimmy hats because I don't play poker

Now how bout a drink on me?
Well how bout my body on you?
Well can't we just both be alone
