# Witness

## Asian Dub Foundation

We never had it so goodDay to day it's the government plan
To grind them down every man and woman
To grind them down every man and woman
To grind them down every man and woman
Day to day it's the government plan
To grind them down every man and womanTo fuck up their minds
Pat their lives in their hands
To mash up their brains, unable to understand
This is a message to those in command
There was never any freedom
Just castles built on sand
