

# Check It

## X-tech

Everything you say to me melts into my body  
Your voice like liquid ecstasy driving down into MY SEA

You know what's bugging me?  
I'm used to sleeping with my steez  
Been broken up for weeks  
I need someone to fill the sheets  
Check it, ahh

You are something that I like  
Babe I'll take you somewhere nice  
Drink your wine, I'll drink my RYE  
Yes, you'll be falling while I'm balling

Ain't no specimen like you  
Bursting with his virgin juice  
I'll take you out to meet my crew  
Be your baller, be my boo

The tension drips from every PORE  
STREAMING to my lady SHORE  
From all the others I picked yours

Consider yourself lucky boy  
Let your lady buy you things  
Cars and suits and diamond rings  
After all I'M SO WILLING

To give you love on every string  
You know what's bugging me?

This relationship's empty  
I wanted something deep  
Until you sold your soul to me  
Check it, ow!

You're like every silver dime  
Ain't been real since '59  
Drink your champagne, I'll drink wine  
Spend my money 'till you love me  
Ain't no specimen like you  
Drink my juice 'till I'm a prune

Ain't got money left for you  
I need you to support me boo, HOO  
You don't pay, of course I'll stay  
You got out with your homies

You can play your halo three  
You'll be wearing what I'm tearing  
I did it once and I'll do it twice  
I will destroy what is your life  
Everything you have I'll buy  
Ain't gonna work, you'll just look nice  
You know what's bugging me  
I need someone LEGIT for me  
I wait, sometimes lonely  
Until I find my balla steez  
Check it  
You are something that I like  
Show me things that make me right  
Don't need a drink just hold me tight  
I'll feel lonely 'till you phone me  
I can't wait to see your face  
Take me to our secret place  
Show me love that isn't fake  
I'll be your lady, be my baby  
You are something that I like  
Your goals inspire my life  
Make me better, make me right  
I'll feel crazy 'till you make me  
I can't wait to touch your face  
Take me to our secret place  
Ain't no problem, feel the way  
I feel lovely with my baby  
Ah, ah  
Check it, check it, ah
