What You Do To Me

Charlie Worsham

I get all choked up
When you tell me you love me
Then whisper my name
I get lost in your touch
And I find myself getting carried away
To a far away place
Where I lose track of time
And cherish each minute endlessly
Yea thats what I do when do what you do to me

[Chorus]
Oh my heart goes crazy
Over you baby
When you do what you do
No if's and's or maybe's
I'll always be in love with you

I get sentimental
And get tears in my eyes
It happens so easily
Yea thats what I do when do what you do to me

[Chorus]

I still get a thrill
Just like the first time
But that ain't hard to believe
Yea thats what I do when you do what you do to me

Yea thats what I do when you do what you do to me
