Equality

Beatrice Eli

I'll be anything, I'll be anyone
Anyone you want me to as long as you need me
I'll go anywhere, I'll go high or low
I'll do what you want me to to make you want meWhen you need medicine
I'll be your heroin
And when you overdose
I'm your adrenaline
I'm the last step
Yeah, I'm that last trip
I'll be that last chance that you'll ever getBaby, I don't care about equality
Baby, I can't afford to worry about meI'll be anything, I'll be anyone
Anyone you want me to as long as you need me
I'll go anywhere, I'll go high or low
I'll do what you want me to to make you want meI'll be anything, I'll be anyone
Anyone you want me to as long as you need me
I'll go anywhere, I'll go high or low
I'll do what you want me to to make you want meI'll be that gentle breeze
All summer long
And when the winter comes
I'm gonna keep you warm
I'm that safe bet
Yeah, I'm your best friend
This is the last chance that you'll ever getBaby, I don't care about equality
Baby, I can't afford to worry about meI'll be anything, I'll be anyone
Anyone you want me to as long as you need me
I'll go anywhere, I'll go high or low
I'll do what you want me to to make you want meI'll be anything, I'll be anyone
Anyone you want me to as long as you need me
I'll go anywhere, I'll go high or low
I'll do what you want me to to make you want meI'll be anything, I'll be anyone
Anyone you want me to as long as you need me
I'll go anywhere, I'll go high or low
I'll do what you want me to to make you want me
