Masquerade

Ashley Tisdale

Hip shaker, dream maker
Heart breaker, earthquaker
I could be anything that you want me to
Coin spender, mind bender

Jet setter, go getter

Changing my getup for anything you chooseI don't mind trying on someone else

I won't mind seeing just how it felt

I might like changing my disguise

To make you happyHere's my formal invitation

You and me go masquerading

Lose ourselves in this charading

Is this love we're imitating?Do we want what we got

If not I say so what

Here's my formal invitation

La, la, la, you can be mySchool teacher, mind reader

Dream weaver, just be the one

I can count on to play it out with me

Hot waiter, cool skater

Trailblazer, pulse raiser

Naughty or nice whatever you want to be You wanna try on someone else

You might like seeing how it felt

Do you mind changing your disguise?

If it makes me happyHere's my formal invitation

You and me go masquerading

Lose ourselves in this charading

Is this love we're imitating? Do we want what we got?

If not I say so what

Here's my formal invitation

Let's go, let's go masqueradingWe'll make it fun

When it's over and done

I still want you to see the real me

No more disguises

Let true love decide if we should be togetherHere's my formal invitation

You and me go masquerading

Lose ourselves in this charading

Is this love we're imitating? Do we want what we got?

If not I say so what

Here's my formal invitation

Let's go, let's go masqueradingLa, la, la, la, la, la, la, la

La, la, la, la, la, la, la
