

# 60 Seconds

## Storm Deisel

(Chorus)

she bout to blow watch me put my magic on her,  
she gone she gone in 60 seconds yall.

watch me drop this thang on her,  
she gone she gone in 60 seconds yall.(Verse 1)

i see you sneaky peaky momma you all on my thuggin',  
i aint trippin' you a dime i'm trying to get that lovin.

i wanna get with you, fine and ask you what's it's function so we can shake the public like we trying to show  
you something.

see i ain't crazy baby i just think you thick and tasty you got me wanna bang it like i'm crippin' in the 80's,  
so on the real reggie dive like navy seals and you got me itch'in' and twitchin' to show my skills.(Chorus)

she bout to blow watch me put my magic on her,  
she gone she gone in 60 seconds yall.

watch me drop this thang on her,  
she gone she gone in 60 seconds yall.(Verse 2)

as soon as i saw you i had to stand up on my brakes,  
i'm trying to get you yellin' fat boys do it great.  
now 60 seconds later look at how your leg shake,  
i put the magic on you man i make you levitate.

i got you feelin' good like you crossing heaven's gate, cause i'm the rocket man i took this chic to outer space.  
see i'm a hog about it boo i even lick the plate,  
so why wait let's get freaky on the first date.

baby girl tell me what you want i'll smash it from the back to the front,  
girl i can be your one stop shop baby let's get to it chop chop.(Chorus)

she bout to blow watch me put my magic on her,  
she gone she gone in 60 seconds yall.

watch me drop this thang on her,  
she gone she gone in 60 seconds yall.(Verse 3)

see what the business is ma we aint no little kids,

i'm trying to hit a speezy pour a drink or twist a bleezy. now look at how you movin' ohh i like the way you  
tease me. you doing way too much don't hurt me baby take it easy.

i wanna eat you up you got enough to feed the needy and when you drop it im'ma pop it like i'm kenny easly,  
and when i'm done i'm going to make sure that you do believe me,  
now you get good ones every time that you think you see me.

let's get loud, let's get buck, let's get wild in here, let's go off, let's go crazy i don't care who hears. dynamite is  
what i'm calling you,  
she bout' to blow just let it go.(Chorus)

she bout to blow watch me put my magic on her,  
she gone she gone in 60 seconds yall.

watch me drop this thang on her,  
she gone she gone in 60 seconds yall.
