

# Long Ago (Acoustic)

Hawk Nelson

Can we get back to the basics?  
Back where we came from?  
When we didn't have no worries  
We were basking in the sun  
Sometimes the least of my problems feel like the biggest ones  
When you said that you were leaving, felt like we had just begun  
It would be so easy  
Oh, if it was that easy  
I can't sleep tonight  
So tell me one more time  
When I dream, it will be you that's on my mind  
It's my heart you hold, so never let it go  
I still love you like I loved you long ago  
Saw you out on the freeway, and later at the show  
It could be my imagination, but I know I'm not alone  
All the lights in the city are burning out with time  
But there's a light that hangs above, and it's keeping us in line  
I can't sleep tonight  
So tell me one more time  
When I dream, it will be you that's on my mind  
It's my heart you hold, so never let it go  
I still love you like I loved you long ago  
All this time that's running by won't stop 'til we stand still  
Cause we are incomplete until we finally breathe  
I can't sleep tonight  
So tell me one more time  
When I dream, it will be you that's on my mind  
It's my heart you hold, so never let it go  
I still love you like I loved you long ago  
Let's take a look at the future  
See where we left off  
I'm so grateful that I found you  
Cause, without you, I am lost
