

Hey Now

FM Static

I met you at the club that night
Around was spinning records
And my heart said Hey now
Hey now
Hey now
Hey now
Yaaaow You said you were
Pleased to meet me
Though the sweet
Smell of your perfume Blew me
Away now
Away now
Away now
Away now
Yaaaow Later on that week
We went out
Talked under
The stars until the next Day now
Day now
Day now
Day now
Yaaaow You drank
Your fruitopia
And we never
Ran out of things to Say now
Say now
Say now
Say now
Yaaow Any minute I'm not with you
I hope I'll see you soon
There's just something that happens
When you walk into the room And instantly I feel so complete
It hits me right about the time you kiss my cheek
And you give me this feeling
It's like no other feeling
But it knocks me off my feet Please don't ask me what I like about you
'Cause it's every little thing you do
And that's just the way you make me feel And I don't think
That there are any others out there like you

And I wont blink 'cause that would mean
I would miss a second beside youAnd maybe you know what I mean
Or maybe this is just a dream
I pinch myself just to make sure
But I'm still here and there you areI wonder why we just met now
It just kind of happened somehow
But here we are together and
Thats all that matters in the endAnd instantly I feel so complete
It hits me right about the time
You kiss my cheek
And you give me this feeling
It's like no other feeling
But it knocks me off my feetPlease don't ask me what I like about you
'Cause its every little thing you do
And thats just the way you make me feelYou can never ask for too much
'Cause id travel the world just to feel your touch
That's just the way you make me feel
