

Sun & Moon (Radio Edit) [feat. Richard Bedford]

Above & Beyond

It's raining, it's pouring
A black sky is falling, it's cold tonight
You gave me your answer
Goodbye, now I'm all on my own tonight And when the big wheel starts to spin
You can never know the odds
If you don't play, you'll never win We were in heaven you and I
When I lay with you and close my eyes
Our fingers touch the sky I'm sorry baby
You were the sun and moon to me
I'll never get over you
You'll never get over me
I'm sorry baby
You were the sun and moon to me
I'll never get over you
You'll never get over me When the big wheel starts to spin
You can never know the odds
If you don't play, you'll never win We were in heaven you and I
When I lay with you and close my eyes
Our fingers touch the sky I'm sorry baby
You were the sun and moon to me
I'll never get over you
You'll never get over me
I'm sorry baby
You were the sun and moon to me
I'll never get over you
You'll never get over me You'll never get over me
