Now She's Left You

The Rutles

Now, she's left you
Left you for another guy
Now, she's left you
And you feel you wanna dieShe's no longer by your side
And your tears you cannot hide
Now, she's left you, my friend
Now, she's left youNow, she's left you
And you're feeling so alone
Now, she's left you
Sat beside a telephoneThat pulls at your heartstrings
Every time it rings
Now, she's left you, my friend
Now, she's left youYour love is up to date my friend today
Yesterday has gone and tomorrow's on its wayNow, she's left you
And you don't know what to do
Now she's left you
Go and find somebody newYou have my sympathy
For she did the same to me
Now, she's left you, my friend
Now, she's left youNow, she's left you, my friend
Now, she's left you
