Boomerang

Cole Swindell

Girl you got my days in my mind mixed up
Last night we we're on fire
Now I'm layin' here wishin' it is what it was
Thinkin' love is a liar
The way you dance in and out of my hands
Ain't nothin' I can do but hold you when I can

You're like a boomerang
You like leadin; my on, then you leave me alone
Oh baby why, why you're like a boomerang
Flyin' out of my arms off into the dark
Then you back again like a damn boomerang

Every time I wonder where you are now
I get to lookin' out the window
Knowin' you know right where I can be found
And how to keep me from lettin' go

Its hard to get you out of my head
With your every now and then
Crashin' in my bed like a boomerang

You like leadin' my on, then you leave me alone
Oh baby why, why you're like a boomerang
Flyin' out of my arms off into the dark
Then you back again like a damn boomerang

You're like a boomerang
You're cold, you're hot, you're here, then you're not
Well here you come now like a boomerang
I can't lock the door 'cause I can't wait for more
Give me some more

You're like a boomerang
You like leadin; my on, then you leave me alone
Oh baby why, why you're like a boomerang
Flyin' out of my arms off into the dark
Then you back again like a damn boomerang

Yeah, you're way too good at this game

There you go but I know you'll be back
you little boomerang

Here you come again
Here you come again
Here you come again
