Love Is Everywhere

Caught In the Act

Love is everywhere
To you I swear
Can you feel, you don't have to be alone
Love is everywhere
And I'll be there
Turn around, whenever you need someoneI used to be lonely
Never played the game of love
But since I looked into your eyes
You are all I'm thinking of
Now I can't believe it
But this miracle is true
Everywhere I turn my head
I can see no one like you
Smilling faces all around me
Come on and join the ride
Come on, come onLove is everywhere
To you I swear
Can you feel, you don't have to be alone
Love is everywhere
And I'll be there
Turn around, whenever you need someoneTonight
Baby can you feel my love tonight
Baby can you feel my love tonight
