

Competition

Fanmail

It gets outFeeling, slow watching, everyone is passing by
And I'm still here, is this worth?
All the stress and come around
'Cuz I'm still down, everything is so confusingCompetition swallows me
From a life where what you hear ain't always what you see
Competition worries me
Brings out the best in you and the worst in meCaught this time in the middle
Come and find a common ground
Everyone seems to be staring, am I wrong?
Indecision, I don't know who I've become
And I'm not sure who you are eitherCompetition swallows me
From a life where what you hear ain't always what you see
Competition worries me
Brings out the best in you and the worst in meI suppose you have some games
That you would love to play with me
I sure do, would you like to try?
Be my guestCompetition swallows me
From a life where what you hear ain't always what you see
Competition worries me
Brings out the best in you
