

The Dream

Delta Rae

I had the dream
always the same
I was in white and falling
pretty red rose
pinned to my clothes
I had the dream as always
Remember when you said you loved me
Remember when you said that it will all work out
We packed up and we left by morning
and everything you promised didn't happen and now
and I'm swirling softly
drifting like the cream in your coffee
and you're talking calmly
when I'm scared
to be on our own
when the thrill is gone
and I'm scared
thinking what we've done
to try to love someone
baby can you keep your promise?
baby can I keep you honest?
cause I'm scared
there's nothing in the sky above me
there's nothing strong below us baby if we fall
we're caught between the spark and lightening
we're caught between forever and nothing at all
And I'm sorry I love you
but even those words are getting see through
And I'm losing it all to this feeling baby
I'm scared
to be on our own
when the thrill is gone
and I'm scared
thinking what we've done to try to love someone
baby can you keep your promise?
baby can I keep you honest?
cause I'm scared
when you say you love me
when you a say you love

are we ever gonna be okay?
(when you say you love me)
are we ever really gonna feel safe?
(when you say you love me)
is there something I can say?
(when you say you love me)
is it better if I walk away?
(when you say you love me)
cause I'm scared to be on our own
and I'm scared thinking what we've done
baby can you keep your promise?
baby can I keep you honest?
cause I'm scared
