Bathtub

The Front Bottoms

The sailboat won't be long
The ocean is in the tub
My foot in one the plug
It's pulling me down the drain
I wish I'd never lied
To you in bed that day
If I was wrong or right
Does it matter much anyway?
Never let it bring you down
When it's falling rain on the ground
Never let it bring you down
I wish you were around

The fish float through the room
Nibbling on the moon
The sun sets in your eyes
Scenes of summer skies
The towel is on the floor
But is it worth fighting for?
Never let is bring you down
When it's falling rain on the ground
Never let it bring you down
I wish you were around
