

# I'm Coming Home (Let's Party)

## Parislane

Jet lagged  
Coming home from the city to the west  
Check out hit the road put these wheels to the test  
Girl I'm coming to you let's get this party on  
Gonna shake it loose and hit the roof till it feels like home  
Get the party On  
Get the party On  
Don't leave me hanging  
Let's have a party I'm coming home  
Let's party  
Raise em up  
Let's party x2 Rock up Bust the doors and jump into the scene  
Got vodka shots and spinning lights got me feeling like a dream  
Put my hands down on your waist shake them round a little bit  
One step back turn up this track baby it goes like this  
Get the party On  
Get the party On  
Don't leave me hanging  
Let's have a party I'm coming home  
Let's party  
Raise em up  
Let's party x2 Sax solo Get the party On  
Get the party On  
Don't leave me hanging  
Let's have a party I'm coming home  
Let's party  
Raise em up  
Let's party x2
