

# Talking Backwards

## lo-fi stereo

We can talk for hours  
And the line is still in gear  
We're not getting any closer  
You're too many miles away  
And I might as well be talking backwards  
Am I making any sense to you?  
And they only thing that really matters  
Is the one thing that I can't seem to do  
When that night was over  
And the field was lit up bright  
And I want to tell you  
Nothing I said came out right  
And I might as well be talking backwards  
Am I making any sense to you?  
And they only thing that really matters  
Is the one thing that I can't seem to  
And I might as well be talking backwards  
Am I making any sense to you?  
And they only thing that really matters  
Is the one thing that I can't seem to  
Make sense of this dream  
It's the one thing I can't seem to do
