

# Battle Scars

## Lupe Fiasco

L

Hope the wound heals but it never does  
Thats cause you at war with love  
You at war with love, yeah

G

These battle scars, dont look like theyre fading  
Dont look like theyre ever going away  
They aint never gonna change  
These battle

L

Love

Never let a wound ruin me  
But I feel like ruins ruin me  
Arrow holes, they never close from cupid on a shooting spree  
Feeling stupid cause I know it aint no you and me  
But when youre trying to beat the odds up  
and tryin to keep your nods up  
you know that you should know  
And let her go  
But the fear of the unknown  
Holding another lover strong  
Sends you back into the zone  
With no Tom Hanks to bring you home  
A lover not a fighter  
On the frontline with a poem  
Trying to write yourself a rifle  
Maybe sharpen up a song  
To fight the tanks & drones of you being alone

G

I wish I never looked, I wish I never touched  
I wish that I could stop loving you so much  
Coz Im the only one thats trying to keep us together  
When all of the signs say that I should forget her  
I wish you werent the best, the best I ever had  
I wish that the good outweighed the bad  
Cause itll never be over,  
it'll never be over  
until you tell me its over  
until you tell me it's over

These battle scars, dont look like theyre fading  
Dont look like theyre ever going away  
They aint never gonna change  
These battle scars, dont look like theyre fading  
Dont look like theyre ever going away  
They aint never gonna change

These battle

L

Then just leave then  
You shouldnt have but you said it  
And I hope you never come back  
It shouldnt have happened but you let it  
Now youre down on the ground screaming medic  
The only thing that comes is the post-traumatic stresses  
Shields, body armours and vests dont properly work  
Thats why youre in a locker full of hurt  
The enemy within and all the fires from your friends  
The best medicine is to probably just let her win

G

I wish I couldnt feel  
I wish I couldnt love  
I wish that I could stop cause it hurts so much  
so much  
And Im the only one thats trying to keep us together  
When all of the signs say that I should forget her  
I wish you werent the best, the best I ever had  
I wish that the good outweighed the bad  
Cause itll never be over,  
can never be over  
until you tell me its over  
until you tell me it's over

These battle scars, dont look like theyre fading  
Dont look like theyre ever going away  
They aint ever gonna change  
These battle scars, dont look like theyre fading  
Dont look like theyre ever going away  
They aint ever gonna change

These battle

Cause youve set me on fire fire  
Ive never felt so alive, yeah

L

Now, hoping wounds heal, but it never does  
Thats because youre at war with love

G

And Im at the point of breaking uh-huh

And its impossible to shake it

L

Yeah,

see

You hoped the wound heals, but it never does

Thats cause you at war with love

Hope it heals, but it never does

Thats cause you at war with love

G

These battle scars, dont look like theyre fading

Dont look like theyre ever going away

never

They aint ever gonna change

never

These battle scars, dont look like theyre fading

Dont look like theyre ever going away

never

They aint ever gonna change

never

These battle scars, dont look like theyre fading

Dont look like theyre ever going away

They ain't ever gonna change

These battle
