Were Before

Cults

I met you on the sidewalk
I hoped you were the way you were before
Don't give into the small talk
Don't give up on the things that we adoreOh yes, you know I'm like that
I like you like the way you were before
Still got some things to forget
These days just walking around here's such a choreWe both needed all and more
Just the way were before
x2I'm pleased to see that old walk
Skipping all the cracks on the concrete
These days have gotten real tough
(?) like you ever seemed
I've been around a few blocks
I chased away the cobwebs in the street
I wind up all the old clocks
So we can say we never skipped a beatChorusCause we like that
Just like the way we were before
It's all made up
But that's just what we have in storeYou can't fix that x4
