

# I Want You So Bad

## Heart

When the wind blows through your hair  
I want you so bad, want you so bad  
I see your smile boy everywhere  
I want you so bad, want you so bad I never thought this could happen to me  
If I've fallen over you  
Would it be so bad, would it be so bad?  
Every night's an eternity  
I want you so bad, want you so bad I never thought this could happen to me  
I want you so bad, bad, bad When the wind blows through your hair  
I want you so bad, want you so bad  
Oh I wonder if you're aware  
I want you so bad, I wonder if you care
