Slide

The Dandy Warhols

You said I'd slide into myself
You said I'd slide, destroy myself
'Cause when I wake inside myself
I knew I'd take away from you
So see if I could find my life
In the shadows that you hide
Find our lives in the wires that decide
Beside I'd say I slide
Into dream, my mistake
In what's real, in what I take
With the words that made me stay
I knew they'd take away from you
So see if I could find my life
In the shadows that you hide
Find our lives in the wires that decide
Beside I'd say I slide
Into you, into sleep
In what's real, in what I'll keep
Close your eyes and let me see
What you'll take away from me
So see, if I could find my life
In the shadows that you hide
Find our lives in the wires that we hide
Inside I'd say I slide
Hey!
