

# Silhouettes

## The Relay Company

Hey You  
I saw your shadow  
But I knew  
It was impossible  
I felt you  
But it was in my head  
I heard you  
But it was just the wind, just the wind I've been seeing silhouettes  
Won't let me forget all this emptiness  
Images that fill my head  
and the things you said just before you left  
Please, please don't, please don't let go  
I don't want the sun to set  
I'm not ready yet to lose your silhouette Hey You  
Did you make it home?  
'Cause I would  
Like to meet you soon  
I miss you  
And on days like this  
I need you  
More than just the wind, just the wind I've been seeing silhouettes  
I've been seeing silhouettes Hey You  
We will meet again  
'Cause I won't  
Let this be the end
