

Love Pollution

Kix

I picked you up
When you were steaming hot
You gave me the bug baby
So they gave me a shot You took my ring and threw it on the floor
Well I picked it up just dusted it off
And I was back for more
So then I went back for more But ya threw me a pass
And a mouth full of sass She's spreading love pollution
She spreadin' love pollution
Her love left me in pain
So I washed it down the drain
Ain't it a shame? I asked her how much
She told me love was free
She gave me the green light
Well there's no stoppin' me Then she threw me a pass
And with a mouth full of sass She's spreading love pollution
She spreadin' love pollution
Oh her love left me in pain
So I washed it down the drain
Ain't it a shame? She's spreading wo oh oh oh, lookout
Oh oh ohh, give a hoot The queen she stopped it chilled me to the bone
Didn't read the sign boy?
You entered the danger zone
Entered the danger zone Aw then she threw me a pass
And with a mouth full of sass She's spreading love pollution
She spread love pollution
Oh don't ya come around no more
Because I have to lock the door She spread love pollution
She spread love pollution
Her love left me in pain
So I washed it down the drain
Ain't that a shame? She's spreading love pollution
She's spreading love pollution
She's spreading love pollution
She's spreading love pollution
