Musical 69

Pepper

Think I'd like to know you
Like to know you well
I hear a rhythm knocking
And then push the doorbell
'Cause it's always in her head
Well baby we could take our time
Now gets your legs above me
In a musical 69
I see you there just standing
Wondering if you know
Later on this evening
We'll be head to toe
But I ain't got time to worry
And later baby you'll recline
Now get yourself around me
In a musical 69
Now I am gonna put it on
And you want to, oh baby I can tell
'Cause you got to be, just got to be my baby
So won't you lie on me? Come lie on me
Get you all excited
Time to hit the spot
Drop the tempo for you
On your music box

'Cause I love this had a going
And let me put this down in rhyme
And get yourself positioned
In a musical 69
Now I am gonna put it on
And you want to, oh baby I can tell
'Cause you got to be, just got to be my baby
So won't you lie on me? And don't lie to me
And lie on me, on me, oh, oh, oh
Got to be, got to be my baby
Hit the lens and focus
Let me see your detail
Are you a perfect situation
Or fairy tale?

'Cause I love to hear the story
How you flipped it once upon a time
And got yourself inverted
In a musical 69
A musical 69, a musical 69
A musical 69, a musical 69
A musical 69, a musical 69
A musical 69
