

Everyday Will Be Like A Holiday

William Bell

Everyday will be like a holiday
When my baby
When my baby comes homeNow she's been gone
For such a long time
Ever since she's been gone
She been on my mindI got a letter today
Just about noon
She said, "Don't worry
I'll be home soon" And everyday will be like a holiday
When my baby
When my baby comes homeI'll never have to worry
About sitting by the phone
When she gets here
I'll never be aloneShe said she'd get here
Sometime today
I know when she gets here
She'll never go awayAnd everyday will be like a holiday
When my baby
When my baby comes homeOh, everyday will be like a holiday
When my baby
When my baby comes home
