

...Dust to Dust

Heavenly

After the rain there'll be sunshine
And all the same I feel weak
The heroes win and never die in all the fairy tales
Memories growing in my mind
I'm bringing it all with me away So now I must to regain the sky
The way of light, the land of braves
The heroes win and never die but I saw the victory
The wounds are stronger than am I
My life is over again And I'm bleeding inside, crawling on the road
Leading to the paradise
(The sky)
As a human as am I rising up with head held high
'Cause I defeated master the nightmares creatures I am free flying beyond the stars
Dust to dust, leaving with a humans soul
Printed on my mind the life I passed away
Look to the sky you'll see me again High up in the sky I watch the universe
The land called Paradise is far away from earth
But I would love to remain to farewell I am free flying beyond the stars
Dust to dust, leaving with humans soul
Printed on my mind the life I passed away
To the sky you'll see me again
To the sky you'll see me again
