

# Sky High

Peter Wolf

My lover told me "Honey,  
I know you're kind of funny  
Sometimes I don't know what you need"  
I said "it might be love or money  
But if you're gonna hold me, honey  
You've really got to hold me  
You've got to bring me to my knees" You know it's got to take me sky high  
Sky high, sky high  
I'll get there again  
'Cause I've been there before  
Once you know how it feels  
You want to feel it some more  
I got to take it sky high Some nights I lie here thinking  
You're either rising or you're sinking  
And you can win or lose it all  
I don't care what the chance is  
Or all the song and dance is  
If I can get back up there  
I won't care how far I fall You know it's got to take me sky high  
Sky high, sky high  
I'll get there again  
'Cause I've been there before  
Once you know how it feels  
You want to feel it some more  
I got to take it sky high Once or twice  
Now and then  
I'd like to know  
How it feels to win You know it's got to take me sky high  
Sky high, sky high  
I'll get there again  
'Cause I've been there before  
Once you know how it feels  
You want to feel it some more  
I got to take it sky high
