Come Back Home (Reprised)

Hawthorne Heights

Come back home
You're all alone
Everyone is waiting for
The words to say
To make you stay
To keep you in their arms

Hold still so I can feel
The words that hurt, the hit that kills
The latest fights that lasts some nights
Turn off the lights and leave right now

I know, I know
I'm too slow to catch you here
I know, that she knows
She's running far, far from me

Come back home
Pick up the phone
Or just call my name out loud
So i can hear, so loud and clear
Our time is running, running out

I know, I know
I'm too slow to catch you here
I know, that she knows
She's running far, far from me

Slow down, oh no
So i can catch you now
Slow down, oh no
So we can work this out

I'm growing tired
Let's start a fire
And then we'll fall asleep
You and me.

I'm growing tired
Let's start a fire

And then we'll fall asleep
You and me

Forget what you're not, not what you've learned
I know where you are, I know you got burned
I know you got burned

I know, I know
I'm too slow to catch you here
I know, that she knows
She's running far, far from me

Slow down, oh no
So I can catch you now
Slow down, oh no
So we can work this out
