

# Hollow Man (Live at Moles)

## Kula Shaker

I can only speak the word  
As quickly, as quickly as they come  
Looking down upon the bed  
Suspended by a silver thread Im dreaming From the feeling I had to be sure  
When you know that youve felt this before  
Its a long road, long journey home Trying to see poetry  
Within the shifting imagery of meaning  
Well, if youre feeling hollow man, just throw the stone  
To shatter your reflection with questions Well, if youre trying as hard as you can  
To see where you fit in this plan  
Its a long road, long lonely road It takes time to find the place you love  
It takes time to find the place you love Well, if youve got to be sure  
In that feeling youve got to take time  
It takes time to find the place you love  
Its a long road, long journey home
