

Falling Apart (feat. by an Ion)

Timecop1983

(Intro)

Fly with me
Run with me
Fall with me
Dream with me

Fly with me
Run with me
Fall with me
Dream with me

(Verse)

Driving through the night
To meet you
Hoping to survive
Without a care inside
And it feels alright for me to say

(Chorus)

If your falling apart
I'm ready to break your fears
Don't you worry
Don't you worry
I'll be right here
Right next to you
If your falling apart
I'm ready to break your fears
Don't you worry
Don't you worry
I'll be right here
Right next to you
If your falling apart
I'm ready to catch your tears
Don't you worry
Don't you worry
I'll be right here
Right next to you

(Verse 2)

Riding through the night
Your arms out

Stretched on to the sky
with out a care inside
And feels so real for me to say

Repeat chorus

(Ending)

We are
Untouchable
Unbreakable
Unstoppable
We are
Untouchable
Unbreakable
Unstoppable
