

One Side of You

Martin Levac

Got a feeling that something is wrong and Iâ€™m not sure what it is?

Please donâ€™t waist all the time and keep heart away

Say to me how you feel donâ€™t throw our love away

Thereâ€™s a voice inside of me thatâ€™s telling me to stay

If there is one side you avoiding one side of me

Thereâ€™s only one thing to do just set it free

But if thereâ€™s one side of you to trust that one side of me

We could be so good together just you and me

I can wait I understand that you want to take it easy

Just hold on to our love and your fears will melt away

I donâ€™t know what youâ€™ve been taught

Just lean on me today

I â€™m so sure my love for you is truly here to stay

If there is one side you avoiding one side of me

Thereâ€™s only one thing to do just set it free

But if thereâ€™s one side of you to trust that one side of me

We could be so good together just you and me
