Depression (feat. Young Verse)

Nakuu

I, Do i wanna live Do i wanna die man i dont even know.
Gun in my hand only one bullet and ill be right home.
Ive been trying hard but im only human and the devil want my soul.
God please help my soul, Cuz i dont even know.
It aint easy when its everything you going through some pain.
And you realize theres one way you can make everything change.
Ive been trying hard but im only human and the devil want my soul.
God please help my soul, Cuz i dont even know.

I swear that ive been praying for a better day.
But everyday i swear that it keeps getting worse.
Im losin everybody and its constant pain.
Maybe the afterlife will be better then earth.
Depression is killin me up inside.
Im all alone im feelin like im useless.
My friends been sayin ive been actin stupid.
But they dont know how the hell im doin.
It aint easy when you got nothing and got nobody.
So if i take my life nobody else would care about it.
Contemplating for a while pull the trigger now.
I hope they keep the same energy when im goin down.
Cuz ever since my mother died and my brother too.
I feel like i dont even got nothin else too lose.
I dont know what to do can you help me.
Cuz homie i will pull this trigger if you let me.

I, Do i wanna live Do i wanna die man i dont even know.
Gun in my hand only one bullet and ill be right home.
Ive been trying hard but im only human and the devil want my soul.
God please help my soul, Cuz i dont even know.
It aint easy when its everything you going through some pain.
And you realize theres one way you can make everything change.
Ive been trying hard but im only human and the devil want my soul.
God please help my soul, Cuz i dont even know.

Nakuu Let me start at first and ye, i get you.
And its crazy what you been through.
But believe im right here wit you.
If you ever feeling alone, and you feel like you on your own.

Ill be right here for that nightmare you just dial here on your phone.
Cuz dog you my brotha, we been lookin out for eachother.
Just like when im feelin down, and depression got me smothered.
You got my back and i got yours,
Dog we goin to the top floor we got millions of chances now boy.
In this life you got alot more.
One life on this earth, thats all we get then we gone.
So why not give it yo everything, and show em all that you strong.
And you aint no damn statistic, you can change life in existence.
You can save life with you words, and go make a serious difference.
See billions need this music, they take it in and they use it.
It goes down to that dark place, and these words can be soothin.
So dont let that monster get chu, we all got stuff that we been thru.
Its how much we get knocked down that shows how much you got in you, ye.

Do i wanna live do i wanna die man i dont even know.
Gun in my hand only one bullet and ill be right home.
Ive been trying hard but im only human and the devil want my soul.
God please help my soul, Cuz i dont even know.
It aint easy when its everything you going through some pain.
And you realize theres one way you can make everything change.
Ive been trying hard but im only human and the devil want my soul.
God please help my soul, Cuz i dont even know.
