

# Insanity

## Aditus

She turns my world around  
Whenever she is touching me  
She knows she's got control  
Of every little thing I feel  
    You better let go  
    You better let go  
    I can't go on feeling  
    Like a little devil boy  
    But at the same time  
She takes me where I wanna be  
    (You better let go)  
    (You better let go)  
Come on, you know what I want  
    She takes me into fantasy  
    Let me back to reality  
    (Hey ho, hey, hey, hey ho)  
    Insanity  
Your girlfriend's coming on to me  
She eats your heart out, can't you see?  
    (Hey ho, hey, hey, hey ho)  
    Insanity  
    No, you have no idea  
She's doing things behind your back  
    She's creeping up behind you  
    Telling me, "I want you"  
    (You better let go)  
    (You better let go)  
    Come on, girl  
  
    Now don't push it, girl  
    Then go to someone else  
When you know you hurt me, ouch  
    Really, really bad  
    (You better let go)  
    (You better let go)  
    She takes me into fantasy  
    Let me back to reality  
    (Hey ho, hey, hey, hey ho)  
    Insanity

Your girlfriend's coming on to me  
She eats your heart out, can't you see?  
(Hey ho, hey, hey, hey ho)  
Insanity  
Sweet as she is she is breaking my heart  
Nobody knows it I fell from the start  
Heating your life then she blows you away  
But I can't stay  
(You better let go)  
(You better let go)  
She takes me into fantasy  
Let me back to reality  
(Hey ho, hey, hey, hey ho)  
Insanity  
Your girlfriend's coming on to me  
She eats your heart out, can't you see?  
(Hey ho, hey, hey, hey ho)  
Insanity, yeah
