

# Won't Let Go

Newton Faulkner

Go take more than you need. It's taken hold of me, it's taken hold of me. Now you're looking for a rise  
You won't get one from me. Won't get one from me Time moves slowly on your own. You're thinking for  
yourself it's time  
You won't let go. But you're still falling. You're on your own. But you're still falling back to earth Go on why  
can't you see, that I'm not what you need ? I'm not what you need  
You'll find the answers are inside. So you can dry your eyes. Dry your eyes Time moves slowly on your own.  
You're thinking for yourself it's time  
You won't let go. But you're still falling. You're on your own. You should be thinking for yourself Give it time.  
Let it breathe for a while. You won't let go. But you're still falling back to earth Sun it mixes with the leaves. It  
gives you time to breathe. Gives you time to breathe. I'm no virtue but it's right  
Things aren't so black and white. Aren't so black and white Times moves slowly on your own. You're thinking  
for yourself it's time You won't let go. But you're still falling. You're on your own. Should be thinking for  
yourself  
Give it time. Let it breathe for a while. You won't let go. But you're still falling back to earth  
Back to earth. Back to earth. Back to earth
