Sexual Attention

3t

How you like it now
How you like it now, baby
You need me
You need me too, yeah
I can't hide from things that you do to me
Even though you deny every girl with me
You say we're friends when I say that we're much more
And how could I let go of what I've been looking for
I can't let you take control of me
(Oh no, no, no)
I've gotta get you to give me what I need
I need sexual attention, baby I should mention
There's something that I need from you
I wanna love and I need you to need me too
Oh, sexual attention baby I should mention
There's something that I need from you
(Something that I need from love)
I wanna love and I need you to need me too
I can't see what you wanna get from me
I give you good love and more, yeah, everything
Can you give me one reason why we should be apart
If I mean anything to you tell it to my heart, oh yeah
I can't let you take control of me
(Oh no, no, no)
I've gotta get you to give me what I need
I need sexual attention, baby I should mention
There's something that I need from you
I wanna love and I need you to need me too

(I need, I need, I need)
Oh, sexual attention baby I should mention
(Sexual attention)
There's something that I need from you
(Something that I need)
I wanna love and I need you to love me too
(I wanna love, I need to love, hey)
What I want from you is
(Sexual I need from you, yeah)
What I need for love right now

(Me to you, me to you, me to you and me, yeah, and me, yeah)
Sexual attention, baby I should mention
Is something that I need from you
I wanna love and I need you to need me too
(Said I need from you)
Oh, sexual attention baby I should mention
There's something that I need from you
I wanna love and I need you to need me too
(Girl you know I need you to need me)
Sexual attention baby I should mention
(Sexual attention)
There's something that I need from you
(Girl you know I need your love)
I wanna love and I need you to need me too
(Girl I need the love from you)
Oh, sexual attention baby I should mention
Is something that I need from you
I wanna love and I need you to need me too
