

I Don't Need No Bitch

Snoop Dogg

(I don't need no bitch)
My mama told me never ever trust one, bust one and break 'em
Be 'bout your paper, nigger, take it
Every day's a hustle, got these haters at my neck
Suckers tryna get a check The Boss Dogg does it, hoes wanna call it what it wasn't
Tryna kiss a nigger all in public, bitch, is you crazy?
I preach pimpin' not pussy
Shit, I heard it all before, I ain't no motherfuckin' rookie
(I don't need no bitch) I'm a Long Beach, rollin' twenty, playa 'bout his G's
I ain't trippin' off these walls, you know these rats is after cheese
Messin' with my focus, the locust on his grind
Baby, focus on his dick and keep your focus off my time Stay in the lane that I made for you to chill
Until then it's been real
I gotta handle business and you are nowhere in it
See, trippin' gets you nowhere 'cause bitch, I'm on that I don't need no bitch, bitch, bitch, bitch all on me
Trippin' and callin' my phone, always lyin'
I don't need no bitch, bitch constantly checkin' on me
Bitch, don't even try it, I'm out here grindin'
That's why I don't need no bitch We used to rock to the rhythm that didn't stop
Now you tellin' me I need to be gettin' out
And go find me a bitch 'cause it's over and through
But why do I need a bitch when I got you?
(I don't need no bitch) I don't mean it like it sounds but we used to be a team
Yo, we used to have a dream, yo
We used to put our things together now it's dividing, hiding
Bottled up negative feelings inside, these (Bitches)
They come a dime a dozen
Fuck one, let one suck my dick and find another
(Bitches)
I don't need 'em
Don't buy 'em nothin' to drink, I don't feed them (Bitches)
Never mind them
I stay in front, I used to chase behind them
(Bitches)
No, I don't wine and dine them I don't need no bitch, bitch, bitch, bitch all on me
Trippin' and callin' my phone, always lyin'
I don't need no bitch, bitch constantly checkin' on me
Bitch, don't even try it, I'm out here grindin'
That's why I don't need no bitch Hell no, I don't need one

And all that talkin' and fussin', bitch, you can miss me
I put these size twelves down on a 10 speed
Before I let a bitch get the best of me
(I don't need no bitch)The recipe for danger, phone checkin', recipe for anger
I'm from a gang but I don't wanna bang ya
And I can tell how you tell all your friends about my Benz
And my ears, bitch, really I'm the perfect strangerWhich turned you to the perfect stalker
Body like Miss Parker, maybe get little darker
But I'mma have to pass on that ass
You was too much in the first place
Never understood when it was work dayAnd then she all up on your boy in the worst way
You need to detox, bitch, see Dr. Dre
'Cause crazy ain't gon' get it and trippin' get you nowhere
'Cause, bitch, I'm on that, bitch, I'm on thatI don't need no bitch, bitch, bitch, bitch all on me
Trippin' and callin' my phone, always lyin'
I don't need no bitch, bitch constantly checkin' on me
Bitch, don't even try it, I'm out here grindin'
That's why I don't need no bitchYou need to quit talkin' crazy
I don't need no bitch
You need to quit talkin' crazy
