

# Good Luck, Good Night, Goodbye

## The Secret Sisters

I know it's not a perfect world  
But tonight I'm the perfect girl  
I have a man but he just lie,  
Good luck, good night, goodbye You think I need some company  
You say it's awful be close to me  
You gave me coasing and you making ice  
Good luck, good night, goodbye  
Good luck, good night, goodbye You're words just make me doubt so just forget about it  
If love hurts, who really needs it anyway  
I hate to purse your bubble  
But all I see it's trouble  
This is a game that I won't blame Call me crazy, call me mean  
You're the last thing that I need  
Give another girl [?]  
Good luck, good night, goodbye  
Hey, hey, ooh, woowee, no, no  
Yeah, yeah oh my, my  
Good luck, good night, goodbye  
Good luck, good night, goodbye There ain't no way around it  
Don't wanna think about it  
If love hurts, who really needs it anyway  
I hate to purse your bubble  
But all I see it's trouble  
This is a game that I won't blame I've got the pain in lovers feel  
I've got the scars that just don't heal  
Go on, don't waste your time  
Good luck, good night, goodbye  
Go on, don't waste your time  
Good luck, good night, goodbye
