

# How to Act

## D.R.I.

There's only one way to act  
When you're dealing with fools  
    You stab them in the back  
And break all their rulesThere's only one way to be  
    When you're making it with she  
        You've got to play a role  
    And you've got to make it seem like love
