Goodbye Forever

Volbeat

Did you say the thing you wanted?
Have you ever felt in love?
A moment where no problems would ever get you down
Free as an eagle but only for a day (yeah listen)The final is a warning, wake up before you go
There'll be no second chances,
that day you'll be on your own
Let out the feelings,
tomorrow may not comeChorus:
All alone in the dark
Move the curtains for once
See the light life has brought,
or goodbye forever
Take the arms that embrace
no more being afraid
Feel the sun on your face
or goodbye foreverWere you listening to the evening?
Have you ever felt the dawn?
When everything around you told stories from the world
Dear mother nature speaks louder than you know
(oh listen)The final is a warning
Wake up before you go
There'll be no second chance
that day you're on your own
Let out the feelings tomorrow may never comeChorusWe are the birth
We are the end
We are the souls
We have a name
We are the rising and the fallen ones
We are the spirit forever more
(x2)Chorus
