

# Workhorse

## Mastodon

Slaved into brittle and worked for days  
Only thing that paves your stay  
Look behind you see what you've made  
Like a workhorse stands for miles  
Work for you and never get tired  
Roll 'em up it's time to go  
We'll be back before it's too long  
Shaved into rhythm, work for days  
Consequences we have paid  
To be free in a world we've made

Like a workhorse stands for miles  
Work for you and never get tired  
Roll 'em up it's time to go  
We can bet on all that's lost  
Before it's too long  
Burning hell  
Like a workhorse stands for miles  
Work for you and never get tired  
Roll 'em up it's time to go  
We can bet on all that's lost
