Molitor

I will never let you go
Even on the darkest nights
You're everything I've ever known:
The sun, the moon & the streetlights
Don't you ever die on me, I need you by my side
We make a perfect harmony, you bring me out of life
You are my lightThere's one thing I love, one thing I need
One thing I loathe, one thing I breathe
One thing I love, one thing I need
One thing I loathe, one thing I breathe
My light's gonna kill me when I least expect
My light's gonna kill me when I least expect
My light's gonna kill me when I least expect
My light's gonna kill me when I least expect
You gotta, you gotta get what I need
You gotta, you gotta get what I need
You gotta, you gotta get what I need
You gotta, you gotta get what I need
You gotta, you gotta get what I need
You gotta, you gotta get what I need
You gotta, you gotta get what I need
You gotta get what I need for me
You are my lightYou gotta make that money, figure it out
You gotta make that money, that's what it's about
You gotta make that money, make that money;
Make that money make money for me(You gotta make that money)
You gotta make that money for me
You gotta make that money for me (x4)
