Don't Save Me

Haim (Song.SX)

You say, we must move forward
And I say let's not go back
Once we were brave explorers
But this trail is a worn out track
Don't chase that setting sun
Look what we've become
Don't save me, I'll save you the hassle
Our little castle is a house of cards
It's empty, heartache is pending, this is us ending
You say, you were just kidding
And I say this is no joke
We've grown and we're not fitting
We've flamed now to a wisp of smoke
Don't turn the truth around
It reads the same way upside down
Don't save me, I'll save you the hassle
Our little castle is a house of cards
It's empty, heartache is pending, this is us ending
So don't save me, don't you dare
Little by little, sneaking upon 'til it's too much to ignore
Let's live in the middle
Before it dead ends have been down this road
Don't you dare leave me here, I'll go looking elsewhere
Don't save me, I'll save you the hassle
Our little castle is a house of cards
It's empty, heartache is pending, this is us ending
Don't save me, I'll save you the hassle
Our little castle is a house of cards
It's empty, heartache is pending, this is us ending
So don't save me, don't you dare
