Down Poison

3 Doors Down

I've dreamed about this sixteen days away
Now you're here and my head lies
Besides your body pillowed under mine
You were poison, spinning round my mind
"Welcome to my world", she said
"Do you feel alive?", she said
It's all a bad dream
Spinning in your lonely head
"Welcome to my world" she said
Separated world, she stayed
Separated
Down poison
Down poison
Body withered, body died
Time to take away this life
Bad enough to die from one
Not to mention four or five
"Welcome to my world", she said
"Do you feel alive?", she said
It's all a bad dream
Spinning in your lonely head
"Welcome to my world" she said
Separated world, she stayed
Separated
Down poison
Down poison
Down poison
Down
Down poison
You weren't there for me, I was there for you
Down poison
You weren't there for me, I was there for you
Down poison
You weren't there for me, I was there for you
Down poison
You weren't there for me, never there for me
You wouldn't die for me, I've already died for you
You wouldn't die for me, I've already died for you
You wouldn't die for me, I've already died for you

You wouldn't die, you wouldn't die, you wouldn't die, no
"Welcome to my world", she said
"Do you feel alive?", she said
It's all a bad dream
Spinning in your lonely head
"Welcome to my world" she said
Separated world, she stayed
Separated
Down poison
Down poison
Down poison
Down
