

Down Poison

3 Doors Down

I've dreamed about this sixteen days away
Now you're here and my head lies
Besides your body pillowed under mine
You were poison, spinning round my mind

"Welcome to my world", she said

"Do you feel alive?", she said

It's all a bad dream

Spinning in your lonely head

"Welcome to my world" she said

Separated world, she stayed

Separated

Down poison

Down poison

Body withered, body died

Time to take away this life

Bad enough to die from one

Not to mention four or five

"Welcome to my world", she said

"Do you feel alive?", she said

It's all a bad dream

Spinning in your lonely head

"Welcome to my world" she said

Separated world, she stayed

Separated

Down poison

Down poison

Down poison

Down

Down poison

You weren't there for me, I was there for you

Down poison

You weren't there for me, I was there for you

Down poison

You weren't there for me, I was there for you

Down poison

You weren't there for me, never there for me

You wouldn't die for me, I've already died for you

You wouldn't die for me, I've already died for you

You wouldn't die for me, I've already died for you

You wouldn't die, you wouldn't die, you wouldn't die, no

"Welcome to my world", she said

"Do you feel alive?", she said

It's all a bad dream

Spinning in your lonely head

"Welcome to my world" she said

Separated world, she stayed

Separated

Down poison

Down poison

Down poison

Down
