

Time

Fastball

Time's a teacher yesterday
You know I had nothin' but time
Why'd you have to go away?
I never got to tell you goodbye And time beats up on you Life is funny, life is strange
You know I'm just trying to get by
Money, honey, buys you things
It can't buy a place in the sky And time beats up on you Another year disappeared
Where did it go?
People ask me
What's the time?
I really don't know
I really don't know
I really don't
I really don't know And time beats up on you
And time beats up on you Time beats up on
Time beats up on
Time beats up on Time beats up on you
Beats up on you
Beats up on you
