Leaving This World Behind

Trivium

Could someone please erase me
Take my body from this hell
I don't know how it started
But I sure know how I fellWe dug our graves real deep
Surrounded by our moats
Such a shame, oh such a shame
Our sins won't help us floatI'm leaving this world behind
Making up for all our crimesI'm leaving this world behind
Making up for all our crimesI'm leaving this world behind
Making up for all our crimes
