

Miss Me

Bob Sinclar

For all the times, another sacrifice
When we make for keep this relationship together
You just do me that, I know you're for those walk
Love is still in our heart, I know you're gonna miss me
You know that For your love, for your love Groove until the sunrise, moving on a few sky
Nothing really matters when we are together
For the fun that we had, for the joy in your eyes We made love is the real, feel the bridge under sea
Caught a star in the sky, could it be, be more cool?
So, hear me baby, just see me baby You're gonna miss me
(For your love)
You're gonna miss me after all we've been through
(For your love) Oh, oh, you're gonna miss me, yeah
(For your love)
Well, after all we've been through
You're gonna miss me, yeah
For your love, for your love Baby, you surprise me when you say forever
There's nothing here to keep me
But you got the number, oh, we dance in a trance As we burn in a flight, flying high to the light
On a sweet summer breeze, hear the beat of your heart
When I touch your desire, just see me baby, just hear me baby You're gonna miss me, yeah
(For your love)
You're gonna miss me after all we been through
(For your love) You're gonna miss me, yeah
(For your love)
You're gonna miss my love
You're gonna miss me
You're gonna miss my love
You're gonna miss me baby, baby When you walking down the street girl
I been so good to you, but I still love you
But I got to go, I still gonna always love you
But you're gonna miss me, that's all I to say Yeah, yeah, yeah, anytime, anywhere
'Cause you're gonna miss my love now, baby
Every night while you sleeping, yeah You're gonna, gon, gon, gon, gon miss my love
Now, now baby, miss my love
Now, now baby, miss my love, yeah
Don't let me step one time
You're gonna miss my love
