

Something That Produces Results

The Early November

Clever is a general word
While always showin' that she's hurt
But never wrong, but never wrong
It takes a lot to make the end
It takes a lot of smart thinkin'
But never wrong, but never wrong And she shows off her skill
Right as she takes it all
Out of her hat
You make sure that it's real,
And it's all you thought you had
And now you're scared
And now you're scared Clever is a general word
While always showin' that she's hurt
But never wrong, but never wrong
It takes a lot to make the end
It takes a lot of smart thinkin'
But never wrong, but never wrong Clever, clever is all
But you're never wrong
Clever, clever is all
But you're never wrong All I can see
Is the smiles
Fall asleep
And now I'm scared
And now I'm scared
And now I'm scared Clever is a general word
While always showin' that she's hurt
But never wrong, but never wrong
It takes a lot to make the end
It takes a lot of smart thinkin'
But never wrong, but never wrong Clever, clever is all
But you're never wrong
Clever, clever is all
But you're never wrong
